Commissioner,

Attached please find the email thread printed in a different format with hopes that this will clarify any existing confusion. There may be some overlap between sheets in order to provide each and every email exchanged.

In the spirit of full transparency, I have forwarded you all the documents at this point including the second inquiry I made to the Ethics Board on January 16th as requested in your last email.

In addition, because of your concerns, I have decided to move this issue to the Ethics Board in its entirety, with all the related documents, to seek an advisory opinion. Hopefully, this will alleviate any more time spent by us on this ethics issue.

I will also be asking the Ethics Board for a second opinion on upcoming votes regarding the property on Morgan and Myrtle. I am happy to share the Ethics Board opinions once they are rendered with the entire City Council.

If you have any further questions, feel free to ask.

Joanne
